- Excellent team player and problem solving skills.
- Adaptability and eagerness to learn

### PROJECTS

- JAVA EE - ECONOME (MOBILE APP)** August 2023
- Developed an android financial budget application called EconoMe, which can be used on dynamic sized smart android gadgets, which allows the user to plan their budgets in categories, and track expenditures monthly. (Group Project).
  - Implemented the record interface which accumulates all transactions in the application using the CRUD operations.
  - Managed version control and tracked tasks progress using GitHub.
  - Developed using Android studio, using Java languages, and Gradle as the dependency manager.
- JavaScript - Hangman (Web App)** June 2023
- Developed a game which allows users to guess a word from different categories, with a diagrammatic number of trials, called the hangman (6 trials), after which the word will be displayed if lost. (Solo Project)
  - Developed using HTML CSS, and JavaScript in Visual Studio Code.
- Java - Online Store (Web App)** June 2023
- Built a dynamic online shopping cart which allows users to select items in a gallery, edit selection, and make payment using Java, HTML and CSS.
  - Deployed the use of servlets and achieved the dynamic nature of the app using JSP, and TOMCAT as the dependency manager in the Apache Netbeans IDE.

### EXPERIENCES

- IT SUPPORT Intern** August 2016 - February 2017  
ABC TRANSPORT PLC, Nigeria
- Carried out Installation Services, Database Management and Role Assignment to Software users.
  - Executed Hardware Maintenance and Repairs.
  - Basically managed the Company's database and website administration.
  - Maintained the Company's Networks (WLAN and LAN).
  - Proffered Hardware repairs/ replacement solutions.

---

## EXPERIENCES
